Coordinator: Prof. Abdellah HOUARI

Moderators: Prof. Fatima BOUBRIK & Prof. Bouchra RHERISSI

Opening _Session

Prof-ELGOT Abdeljalil

Omega 3 fatty acid (DHA) Attenuates Manganese-Induced Neurotoxicity and Motor Deficits in a Mouse Model of Parkinsonism

Prof- Lahcen ELMOUMOU

Challenges to Gluten-Free Diet Adherence in Adults with Celiac Disease

Prof-Hicham GOUGUENI

Phytotherapy practices in southern Morocco: Variations in use and experience in the treatment of gastrointestinal disorders

Oral_ Presentations

Barhoine Mariama

Antibiotic Susceptibility Patterns of *Helicobacter pylori* in Southern Morocco

Raouani Oussama

Bouffa Use in Morocco: Neuropsychiatric Effects and Health Professionals' Perceptions in the Case of Casablanca

Youssef El Bahi

Epidemiology of tuberculosis in Marrakech-Safi region (Morocco): diagnosis, treatment, quality of life and associated factors

Beraouz Ikram

Toxicity Effect of Moroccan Saffron By-Products in Wistar Rats

Hasna Ait Said

Study of intestinal microbiota in children with celiac disease

Benabouche Salma

Optimizing Culture Conditions for Carotenoid Synthesis in Saline Microalgae from Southern Moroccan Saltworks

Hachem Elaazri The Effect of Cannabis on Depression: A Behavioral and Neurophysiological Study in Experimental and Clinical Models	Ahmed Oubaasri Feature Selection for Tuberculosis Treatment Outcomes: A Machine Learning Approach
Hachimi Noufel Prediction and analysis of cannabinoid extracts in an Alzheimer's disease model: Experimental and bioinformatics approach focusing on the BDNF/TrkB pathway	Hicham Ben-Lahcen Determinants of primary healthcare facility performance: the case of the national immunization program
El Hanafi Aicha Impact of Poverty Status on the Quality of Life of Diabetic Patients: A Cross-Sectional Analysis in Morocco	Aya Ikhelk Adopting Evidence-Based Practice in Morocco: A Cross-Sectional Study on Nurses' Perceptions, Challenges, and Opportunities
Beraouz Ikram Toxicity Effect of Moroccan Saffron By-Products in Wistar Rats	Nezha El Mansouri Promoter Polymorphism in <i>Tumor Necrosis Factor α (TNFα)</i> as a Genetic Risk Factor for High-Risk Human Papillomavirus-associated Cervical Cancer in Morocco
Latifa Gualahyane Prevalence and associated factors of anemia among pregnant women in the province of Taroudant: A preliminary cross-sectional study	Hicham El Mouaddib The assessment of the quality of primary care using the SERVQUAL scale: A cross-sectional study in Morocco
Jennifer Costa Leoncio	The Effects of Argan Oil in 6-OHDA Animal Model of Parkinson's Disease as a Future Perspective Treatment

Biology/Medicine/Nursing/ Health Sciences Session

-Salle 10-

Coordinator: Prof. Hind DEHBI

Moderators: Prof. Amal TAZZITE & Prof. Bouchaib GAZZAZ

Opening Session

Prof-Tazzite Amal

Pharmacogenomics: Experience of the Medical Genetics Laboratory of Ibn Rochd University Hospital

Prof-Bouchaib Gazzaz

Forensic genetic and genomic testing: State of art, current and emerging methods and social, ethical and legal aspects

Oral Presentations

Saloua Ferjij

Anxiety and Depression in Patients With Chronic Diseases at the Regional Hospital Center Beni Mellal, Morocco. The case of Thyroid Disorders.

Bellemrrabet Rawane

Modulating Mitochondrial CB1 Receptor: Strategy to alter metabolism and inflammatory processes in Acute Myeloid Leukemia

Asmaa Essemlali HER2-low Breast Cancer: A New Paradigm Beyond Binary Classification	Boujdid Mohamed The impact of simulation training in reducing maternal mortality and morbidity in low-income countries: a systematic review
Fatima Es-Sabir Prevalence and risk factors of medication adherence among women with hypertension from Souss area: A cross-sectional study	Sabri Abdellah Stigmatisation des personnes atteintes de schizophrénie au Maroc : Une recherche à méthode mixte sur la prévalence et les attributs stigmatisants
Smaili Rachid Immune Checkpoint Inhibitor-Induced Myositis : Findings from the Largest Single-Center Cohort and Implications for Preparedness in North Africa	Soufiane El Moussaoui Pediatric emergencies and brain imaging
Fatima Zohra Attouahri Biomarker Discovery for Radiotherapy Resistance in Lung Cancer	Karim Khadija Fluorometric assay of copper in Wilson disease
Kaoutar Anejdam Epidemiological study on nasopharyngeal cancer in Morocco: Case of the University Hospital Center MOHAMMED VI in Marrakech.	Salma Saadi Hospital Based Colorectal Cancer Epidemiology: a 3-year study of patients treated in Mohammed VI Center for Cancer Treatment - Morocco
Adli Othmane Pilot Study on Rapid Screening for Prostate Cancer in Morocco	Meryem Aarab A retrospective Look at Lung Cancer Epidemiological Trends in Mohammed VI Center for Cancer Treatment
Idrissi Ouedrhiri Housna Melatonin-Metformin Co-Therapy Reduces Oxidative Stress and Behavioral Dysregulation in a Diabetic Mouse Model Exposed to Chronic Immobilization stress	Ezzahra Rachid Metabolic Vulnerabilities and Autophagy Adaptations in Chronic Myeloid Leukemia: Keys to Overcoming Imatinib Resistance
Soukaina Loulidi Paediatric cataracts: Epidemiological, aetiological and clinical profiles in Morocco	Benzahra Yasmine Examining the Impact of Depression on Cognitive Function in Women: Insights from a Psychiatric Hospital Using the Beck Depression Inventory and Moroccan Version of MoCA Test
Mina Ait Kaddour	Establishment of the hematology reference intervals in a healthy population of adults in the Agadir-Idaoutanane prefecture: Preliminary study
POSTER_SESSION	
Lahyani Youssef Impact of sociodemographic factors, sleep, physical activity, and sedentary lifestyle on BMI and central obesity in schoolchildren aged 6-12 years in Marrakech, Morocco	
Brahim Boudrari Biological and Molecular Diagnosis of Wilson's disease	
Jebhi Khalid Optimization of Congo Red Staining Technique for the Histological Diagnosis of Amyloidosis	

Prof-Amina Ghibid
High-risk human papillomavirus genotypes in Moroccan women: data from private practice and relevance for cervical cancer prevention
Saloua Ferjij
Prevalence and Determinants of Malnutrition Among Hemodialysis Patients at Beni Mellal Dialysis Center, Morocco: A Cross-Sectional Study.
Sbabou Mohammed
Evaluation of the impact of the sensibilization campaign on the field of Breast Cancer in Morocco.
Soufiane El Moussaoui
Imaging during childhood epilepsy in pediatric emergencies
Ait Said Naima
Antibiotic resistance profile of urinary tract infections caused by Enterobacteriaceae in the province of Inezgane Ait Melloul
Moustakim Rachida
Association between obesity and chronic kidney disease in Moroccan adult population
Ennouri Hiba
Hunter syndrome: Optimization of the PCR reaction of exons III and IX in the <i>IDS</i> gene
Rachida Boutiti
Clinical study of newborns born to mothers with gestational diabetes in the Souss Massa region of Morocco
Youssef El Bahi
Characteristics of Tuberculosis in Marrakech (Morocco): Epidemiology and Related Factors
Soukaina Loulidi
Distribution and Risk factors for childhood visual deficiency in Morocco: Case – control study
ASSMAA TALI
Lambda-cyhalothrin sex-dependently alters behavioural abilities in Swiss mice
Ettaf Kaoutar
Epidemiological profile and risk factors of Spina Bifida: A retrospective study
Janyene Fatima Zahra
Aspects radiologiques des tumeurs de l'estomac : à propos de 35 cas
Latifa Gualahyane
Exploring anemia during pregnancy: A review of epidemiological, clinical and therapeutic aspects
Madani Houria
Argan Oil supplementation: Neuroprotective and antioxidant effects
Oukhdouch Anass
Detection of O6-methylguanine-DNA methyltransferase gene methylation status in IDH-wild type glioblastomas using methylation-specific qPCR: a first report from Morocco
Jamila Taouaf
Physical activity in cancer prevention: A systematic review
Adli Othmane
Exploring the Link Between Sperm Parameters and Markers of Chromatin Decondensation and DNA Fragmentation in Semen
Chibibi Hajar
Analysis of the distribution of genetic polymorphisms involved in the variation of the <i>CTLA4</i> immunosuppression gene expression in the Souss Massa population.
Laaziouez Yassir
BaCl ₂ -Induced Neurotoxicity: Protective Role of Argan Oil on Brain Tissue

Mouafik Abdelilah Personal and Collective Effectiveness in Managing Human Adaptation and Change: The Case of the Village of Tizi N'Oucheg in the Marrakech Region
Mina Ait Kaddour Understanding the Complete Blood Count: Insights into a Key Diagnostic Tool
Elmasnaoui Meryem Antimicrobial Resistance and the Search for Novel Antibiotics: From Mechanisms to Microbial Biodiversity
Marzouk Ranya Toxicity of Medicinal and Aromatic Plants in Morocco : Risk Evaluation and reports cases .

Coordinator: Prof. Zine El Abidine EL MORJANI

Moderators: Prof. Mohammed HSSAISOUNE & Prof. Abdellah BOUAZZA & Prof. Aziza LANSARI

Opening_Session

Prof-El Morjani Zine El Abidine

Sustainable Rainwater Management for the Water Autonomy of the Polydisciplinary Faculty of Taroudant

Oral_Presentations

H'anane Sahil

Effect of Two Types of Biochar Derived from Agricultural Waste on the Physicochemical Properties of Clay Soil

Abdelhadi Ajerrar

Ants diversity and their roles in the Argan biosphere reserve

Dibar Zohayr

Spatio-Temporal distribution and Species Diversity of Sea Turtles strandings in the Moroccan Exclusive Economic Zone

Sahla Karim

Assessment of aquatic pollution in the southern bay of Agadir, integrated response of biomarkers in the bivalve mollusc *Mytilus galloprovincialis*

Sebbab Mohamed Mahmoud

Geo-resources of the Lakhssas Plateau and the Ifni Massif (Western Anti-Atlas, Morocco): A Geotechnical and Spatial Assessment for the Sustainable Development of Quarries.

Laaraj Nour.eddine

First Observations of Microplastic Pollution in Freshwater: Chemical and Ecological Characterization at the Abdelmoumen and Ben Tachfine Dams in Morocco and Their Effects on Biodiversity.

Ouheddou Maryam

Analysis of Microplastic Presence in Commercial Salts in Morocco: Origins of Contamination and Health and Environmental Hazards.

Oubaali Laila

Methane Emission from Municipal Solid Waste Landfill, Agadir

Atni Ayoub Modern agricultural dynamics in the Oued Sayad basin: the current situation, spatial and environmental transformations.	Hamza Taghlaoui Application de la teledetection et de machine learning pour le suivie des cultures de figuier de barbarie (opuntia ficus indica) dans le sud du Maroc.
Fatima Elaissaoui Carbon Farming as a Strategy for Adapting to Climate Change in Morocco: Opportunities and Challenges in the Doukkala Region.	Tounf Oumaima Desertification assessment using MEDALUS Model in Tafilalet Oases, Morocco
POSTER_SESSION	
Zaazaa Hasna Vegetation Cover Degradation and Its Role in the Evolution of Geomorphological Processes on Mountain Slopes: An Analytical Approach Using GIS and Remote Sensing – The Case of Wadi Lamded Basin	
Laaraj Nour.eddine Taxonomic inventory and analysis of functional traits of benthic macroinvertebrates in the Abdelmoumen and Youssef Ibn Tachfine dams (Morocco)	
Ouchlif Ayoub Harnessing Geospatial Data for Smart Urban Planning: Case Study of Taroudannt-Tiznit-Tata Urban Agency	
Sahla Karim The effect of the installation of the LAMZAR wastewater treatment plant on the TAKAD coastal ecosystem; microbiological and physicochemical assessment	
Assendal Hakima From Waste to Resource: Valorization of Low-Cost Agricultural Wastes through Pyrolysis and Characterization of the Produced Biochars for Sustainable Soil Management	
Demnati Khadija Climate change and citrus: Analysis of climate trends and pest monitoring	
Ouheddou Maryam Analysis of Edible Fish as Bioindicators for Microplastic Contamination in Morocco	
Baila Fatima Between Science and Engineering: From Innovative Extraction Techniques to Revolutionary Applications of Muscovite	

Chemics _Session -Salle 1-

Coordinator : Prof. Abdellatif EL HAMMADI

Moderator: Prof. Fatima EL BAZ

Opening _Session

Prof. Fatima El Baz
Chemistry and sustainability

Oral_ Presentations

Maryam Bah
The green algae "Ulva lactuca" from the southern region of Agadir: Characterization, properties, and optimization of organic compound extraction parameters.

Mourad Arrach
Artificial Intelligence for Wastewater Treatment: A Comprehensive Analysis of Emerging Trends and Innovations

Saghir Yahia
Development and Evaluation of an Organoclay Composite for Cr (VI) Removal

Sana Abbas
Directional study of novel ring-shaped donor molecules: A-D-A Type Small Organic Solar cells

Sara Darbal
Highlighting a new green scale inhibitor derived from the thermal waters of Ain Skhoua spring in the Agadir region

Abdallah Imjjad
First Principles Investigations of Mild Steel Corrosion Inhibition by Dopamine Derivatives in HCl Solution

Aoujil Fatima Zahra
Validated Aspen Plus Model for Optimizing Hydrogen Production via Downdraft Steam Gasification of Pine Particles

Elhaid M'bark
Benzothienopyran derivatives as potential eco-friendly corrosion inhibitors for carbon steel in acidic conditions: Effectiveness and surface adsorption mechanism

POSTER _SESSION

Erraji Fatima Zahra
Sustainable Cuttlebone-Zinc Oxide (CB@CuO) Nanocomposite for anionic dye removal

Ezzaine Malika
Comparative Study of Crystal Violet and Congo Red Adsorption on a Chitosan-Based Biosorbent

Physics_Session

-Salle 3-

Coordinator: Prof. Adil HAMINE & Prof. Mohamed ERRAI

Moderators: Prof. M.BELLIOUA & Prof. A. NAIT ALLA

Opening_Session

Prof-Mohammed Bellioua

Exploration of the Universe and Advanced Civilizations: A Perspective on the Kardashev Scale

Prof-Zakaria Ghouli

Energy Recovery in a Nonlinear Harvesting System with Time-Delay Effects

Prof-Abderrahman Nait Alla

Innovative Numerical Approach for Liquid-Gas Interface Tracking in Flowing Thin Films

Oral _Presentations

Tabramet Youssef

Thermal Transfer and Evaporation of Water-Ethylene Glycol and Deuterium-Ethylene Glycol Binary Mixtures in a Vertical Tube

Mohamed Id Elamel

The Impact of Hole Density in the Cu(2)O_2 Plane on the Physical Properties of $\text{LnBaSrCu}_3\text{O}_{6+z}$ ($\text{Ln}=\text{Y, Sm, Nd}$) Compound

Bouzit Fatima

Heat Treatment-Induced Changes in Crystalline Parameters of $(\text{Y}_{1-x}\text{Sm}_x)_1\text{-yEu}_y\text{BaSrCu}_3\text{O}_{6+z}$ Compound

Saf Hafsa

Enhanced Design and Optimization of Perovskite Thin-Film Materials for Next Generation Solar Cells

Hamza Mhamdi

Quantum Information Processing: Principle, advancement and challenges

Boumdyan Mohamed

Low-Temperature Magnetotransport Near the Metal-Insulator Transition in Three-Dimensional $^{70}\text{Ge:Ga}$

Khalid Talbi

Investigating Entanglement k in a Three-Level Laser System via Extractable Work

Zaki Mohamed

Investigation of thermal effects and performance in high-power LMA Tm-doped fiber lasers with nested-ring doping

Anas AIT CHLIH

Prospecting Quantum Correlations and Examining Teleportation Fidelity in a Pair of Coupled Double Quantum Dots System

Hamid Jouah

Heat dissipation and temperature dynamics of Er^{3+} -doped tellurite fiber laser under different bidirectional pumping configurations

Mustapha Ait Boukideur

Study of the Structural, Mechanical and Thermodynamic Properties of the ErAs Phase and Thermodynamic Assessment of the Er-As Binary System

Chkaifa Rabii

Graphene and Quantum Correlations

Hbab Abdellah DFT investigation of structural, ferroelectric, electronic and optical properties of the ferroelectric phase of lithium niobate single crystals	M'bark Amghar Étude théorique de la transparence induite électromagnétiquement dans un système optomécanique
Lahcen Ait Lamine DFT-based comparative study for predicting physical properties of zinc oxide in its wurtzite phase: Effect of the type of exchange correlation functionals	BELKADI Fatima-ezahrae Optimized Wavelet-Based Denoising of Neuropathic EMG Signals
POSTER_SESSION	
M'bark Amghar Optomechanically Induced Transparency and its Applications in Cavity Optomechanics	
Elamraoui Aziz Thermal effect on non-classical correlations and entanglement between qubits system with Dzyloshinskii-Moriya interaction.	
Brahim Ouazik Theoretical investigation with Hubbard corrections of the structural and electronic properties of Strontium titanate single crystals	

MATH/INFO SESSION

-Salle 6 -

Coordinators: Prof. ES-SAADY Youssef & Prof. SADIQ Abderrahmane

Moderators: Prof. ANTARI Jilali & Prof. IGUERNANE Mohamed & Prof. Mouhssine EL ATILLAH

Opening_Session	
Prof-Abderrahmane Sadiq Artificial Intelligence in the Classroom: Promises and Pitfalls of Large Language Models in Higher Education	
Prof-Mouhssine EL ATILLAH Recognition of Handwritten Arabic Derived Alphabets using a Sobel-Convolutional Neural Network Hybrid Approach	
Prof-Mohamed Iguernane Estimation in a censored nonlinear heteroscedastic functional regression model with martingale difference errors	
Oral_Presentations	
Bouchra El Hamidi Co-evolution of Models and Metamodels in Model-Driven Engineering	Moulay Saddik Ait Charif Toward Benchmarking LLM-Based Multi-Agent Systems in Educational Contexts

Ouzahim Fatima Retinal vessel segmentation: Review	Abdeslam Charkaoui The Integration of Large Language Models (LLMs) in Video Generation: State of the Art, Technical Challenges, and Future Directions
Ayoub Ouarka Enhancing Stress Detection Through Personality Traits Analysis	Hasna Mahmoud Smart Career Recommendations: Hybrid Recommender System using Content-Based Filtering and Deep Learning
Sanae Bidariyn	K-means Multi View Clustering Utilizing Sparse & Redundant Feature Learning & Laplacian Regularization

Economics & Law/Chariaa _Session -Salle 4-

Coordinators & Moderators : Prof.Abdellatif ELMENSSOURI & Prof. El Habib DARKAOUI

Opening_Session

Prof-Abdellatif Elmenssouri

La logistique portuaire et son impact sur la performance de la chaine logistique

Prof- El habib darkaoui

Jurisprudential Principles Regulating Student Interactions within University Institutions

Prof-Houmam Idriss

Determinants of technical efficiency in Moroccan hospitals: an analysis using the DEA method and the Tobit model

Oral_Presentations [Economics]

Fatima El Gareh

A bibliometric analysis of logistics performance and employee commitment

Ouissam El Alaoui

Broadening the tax base in Morocco: How to integrate the Informal Economy?

Achrih Lamia

From Mobility to Sustainability: Aligning Transport and Urban Planning

Fatima Zahra Oumouri

Internal Audit in Moroccan Banks: A Systematic Review of Key Determinants and Performance Drivers of a Transforming Function

Ghannam Mustapha

From continuous improvement to a culture of operational excellence Case of the OFPPT

Oubihi Ilham

Gender in Digital Entrepreneurship: A Systematic Literature Review

Oral_Presentations [Law/Chariaa]

Amina Daassiss Civil Liability of Artificial Intelligence: Rethinking Traditional Legal Paradigms	Soufiane Guenouch Crimes Affecting Automated Data Processing Systems and the Judicial Classification of Cybercrime
Abli Asmaa Legal liability in the context of medically assisted procreation	Bahri Mouna Comparative Law and Legal Translation: Beyond a Domestic Jurisdiction of the Law
Jihane Elmergaoui	Moroccan labor law and the challenges of digital transformation

Sociology, Education, Arts, Communication, Media, Languages, Literature" _Session -Salle 5-

Coordinator: Prof. Kenza AAZMI

Moderator: Prof. Azouz EL HASNAOUI

Opening_Session

الدكتورة زهور وناس-جامعة المنستير- تونس

أهداف الورشات:

- اكتشاف المشارك لكفاءاته الذاتية من أجل تسهيل ادماجه الاجتماعي والاقتصادي
- تعزيز قدرات التعاونيات لتسهيل ادماجهم الاجتماعي والاقتصادي
- القدرة على الفعل من خلال اعداد المشارك مخططات شخصية وأهداف ذكية
- تمكين المشارك ذاتيا واجتماعيا واقتصاديا للدخول لمجال ريادة الاعمال
- التعرف على النباتات الطبية واستخداماتها
- تعلم طرق استغلالها
- كيفية التسويق و تجميع المنتج

تاريخ الإنجاز

- 17 ماي 2025: اكتشاف الذات
- 18 ماي 2025: الادماج الاجتماعي والاقتصادي
- 19 ماي 2025: القدرة على الفعل
